MEMORANDUM FOR: DD/I

SUBJECT : Analysis of Cuban Reconnaissance Results

REFERENCE : Memorandum for Special Group, dated
23 April 1963, OCI No. 1428/63

Could you please have NPIC make a technical analysis of the BRASS KNOB photography which was used as a basis for the evaluations in the referenced OCI report. It is not necessary to restrict this evaluation to the specific photographs included in the OCI report, but an evaluation of the BRASS KNOB photography insofar as it is used for PI purposes would be extremely useful in order to permit the NRO to institute any corrective measures that may be desired.
